DR. BERNARD CRYSTAL

Dr. Bernard Crystal was born and educated in Toronto. Following graduation from Harbord Collegiate Institute he received his degree from the Faculty of Dentistry, University of Toronto in 1959. He earned a Bachelor of Arts degree from the same University in 1972.

Our President is married to the former Myrna Albert of Peterborough, Ontario, and they have two children, Carol, age ten and Adam, age seven.

Dr. Crystal is Past President of Toronto East Dental Society and is presently on the Executive of Toronto Alumni Chapter, Alpha Omega Fraternity. He is also active in the Rotary Club of East York, Palestine Lodge of the Masonic Order and is a member of the Beth Tzedec Synagogue.

Dr. Crystal's hobbies include sailing, photography and collecting miniature elephants.

President's Message

Within the next year or two we will again see profound changes in the structure of organized dentistry in Ontario. At this time membership in all dental societies in Ontario will be on a voluntary basis.

I believe that our profession has already become too fragmented. We can have strength only in size and unity.

In my year as President of the Academy of Dentistry I will strive to use our Society as a source of unity across ALL of Toronto. I believe that the four local societies in Toronto and the Academy must work together. Our membership must be kept as high as possible in our area.

The Academy has an outstanding programme prepared for next year. The Winter Clinic under the direction of Dr. William Mackenzie, will have several top clinicians from Canada and the USA as headliners.

This year we will be trying something different. The day after the Winter Clinic the Academy of Dentistry will present an all-day participation course in Electrosurgery by Dr. John Flocken. This will be a limited attendance course and a prerequisite will be attendance at Dr. Flocken's lecture at the Winter Clinic.

The Academy's Second Stated Meeting will be presented by the Operative Department Staff of the University of Buffalo under the direction of Dr. John Ferguson. The course will encompass the latest developments in the field of Operative Dentistry.

Our Annual Dinner-Dance will this year be held at the fabulous new Granite Club.

The Academy will also sponsor Golf and Curling Tournaments.

The Toronto Academy of Dentistry represents all of Toronto. Support its functions to help strengthen organized dentistry in our area.

BERNARD N. CRYSTAL, D.D.S., B.A.

HONORARY LIFE MEMBERSHIP

Jack Kreutzer

The Academy of Dentistry, on the occasion of the 1973 Winter Clinic, has seen fit to confer Honorary Membership to an outstanding dental practitioner and teacher.

Dr. Jack Kreutzer was born in Steinbach, Manitoba, receiving his early education there and in Winnipeg. He entered the Faculty of Dentistry, University of Toronto, in 1928 and graduated in 1932 with a D.D.S. degree and the following year a B.Sc.D. degree.

The forty years which have followed his graduation have been filled with accomplishment and unselfish interest in the advancement of dentistry as a profession. While conducting a private practice from graduation until 1963, he was involved in part-time teaching and clinical research at the Faculty of Dentistry, serving in the Departments of Dental Anatomy, Operative, Prosthetic, Preventive and Clinical Dentistry. He was a major contributor to the programme of the Dental Nurses Course when it was conducted at the Faculty. His involvement in the undergraduate programme in Ethics and Practice Management reflects his sincere concern for high standards of service and professionalism.

During World War II he served in the R.C.D.C., retiring in 1945 with the rank of Captain. He has served extensively in local, provincial and national dental societies in numerous capacities. In 1956 he was honoured by the American College of Dentists by membership in the College. He has lectured extensively throughout the country and is particularly well known through speaking engagements at most of the local societies in Ontario.

He was Chairman of the Department of Preventive Dentistry from 1960 to 1970. He is presently Director of Clinics at the Faculty of Dentistry and continues to play a major role in the conduct of Preventive Dentistry within the Faculty.

Dr. Kreutzer combines a congenial personality, an enquiring mind, administrative expertise, clinical excellence, understanding, tolerance and compassion into a composite of an outstanding professional. His influence on so many throughout his years of service to dentistry will be reflected in this recognition.

Electrosurgery is well established as an important adjunctive procedure in restorative dentistry. It is an instrument truly designed for the general practitioner. As diamond and carbide burs permit precise cutting of hard tissue, electrosurgery, with its assortment of electrode points, permits precise carving, sculpturing, or altering of soft tissue with complete control and with little or no hemorrhage. Research investigators substantiate the safety of this technique. Properly utilized, electronic electrosurgical cutting and coagulation currents permit painless, rapid healing without scar formation. Post-operative reactions are minimal. The many timesaving features and increased efficiency of related procedures make this instrument a must for the general practitioner's armamentarium. Frequently, electrosurgery is the only solution for removal of excess or trapped gingival tissue, or control of gingival tissues at cementation time.

**Presented by the staff of the
DEPARTMENT OF OPERATIVE DENTISTRY —
State University of New York at Buffalo**

This course has been designed around the anticipated needs of the general practitioner. The lectures and discussions will cover the technics and dental materials which the average dentist uses the majority of his operating time. The emphasis will be on the prevention of the loss of teeth. The approach will be made by stressing the preventive systems available for the prevention of dental caries minimum cutting of tooth structure in cavity preparation and the serious attention to tooth form and contour and their relation to periodontal health. Emphasis on the restorative materials will be both from the dental materials viewpoint and upon their manipulation in order to achieve long lasting service.

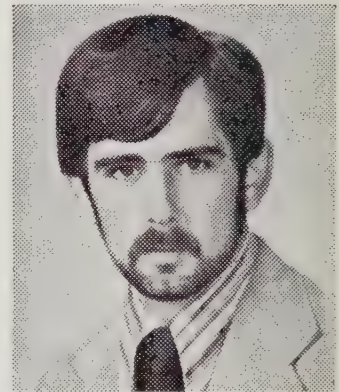

DR. GEORGE W. FERGUSON is a graduate of the University of Nebraska. He spent eight years in private practice in Lincoln, Nebraska, teaching part time at the University of Nebraska. He then spent 25 years in the United States Navy, including 12 years at the Naval Medical Center, Bethesda, Maryland. He was guest worker National Bureau of Standards. He attended graduate school, Georgetown University, earning his M.Sc. degree. Dr. Ferguson is now Professor and Chairman at the Department of Operative Dentistry, State University of New York at Buffalo.

ROY A. WILKO is a native of Queens, New York. He attended New York University and Queens College for his undergraduate work and received his dental degree from Columbia University in 1962.

He served in the Indian Health Division of the U.S. Public Health Service and then taught operative dentistry part time at Columbia University while practicing in Scarsdale, New York.

In 1967 he received a Certificate in Restorative Dentistry and an M.S.D. degree from the University of Washington. Dr. Wilko is currently Associate Professor of Operative Dentistry at the State University of New York at Buffalo.

PETER J. SCHREIER received a B.S. degree from Siena College and, in 1970, a D.D.S. degree from the State University of New York at Buffalo.

From 1970 to 1972, he was a general dental officer in the United States Air Force. In 1972, Dr. Schreier was appointed to a teaching associate in the Department of Operative Dentistry at the State University of New York at Buffalo.

Dr. Schreier is a member of the Erie County Dental Society, the Eighth District Dental Society, the New York State Dental Society and the American Dental Association.

ACADEMY OF DENTISTRY SECRETARY'S REPORT 1972-73

Under the very capable direction of its President, Dr. Donald M. McKee, the Academy had another great year of varied professional and social activities.

For fun and fellowship, the usual functions were again repeated. In October the Annual Academy Golf Tournament was held at the Cedarbrae Golf and Country Club (Chairman, Dr. George Richards) and last March at the Thornhill Golf and Country Club, the Annual Academy Curling Bonspiel took place (Chairman—Dr. Paul Hutz). Both events were very successful, although attendance was not as good as previously.

The Annual Dinner Dance (Chairman — Dr. Miet Kamienski — and his ladies) was again held at the Rosedale Golf Club. This was a very popular evening, and everyone had a great time dancing to the tunes of Dr. Gideon Rowntree's orchestra.

The Academy Tour to Mexico last October to attend the F.D.I. Meeting was an outstanding success, one that won't soon be forgotten by those who were there. Thanks again to Dr. Miet Kamienski.

Winter Clinic Day in November under the chairmanship of Dr. Bernard Crystal was again another great day of fellowship and learning, attracting almost record numbers. Dr. George Hare was made an Honourary Life Member, and the Endodontic Study Group was renamed after him.

Two very successful Stated Meetings were held during the year. The first was in January and featured Dr. Robert Shira, Dean of Tufts University School of Dental Medicine. This was well attended and greatly appreciated, as was the second, another great Academy Day at Canadian Forces Base Borden with Col. L. R. Craigie and his excellent staff.

Mr. Ian Hannah, the Director of the Dental Nurses and Assistants Registry, continued to render his good services for the Academy membership.

The continuing work of the Academy was conducted by the various Councillors and their committees who devoted much time and effort to their responsibilities. They deserve our appreciation.

This past year our Executive Secretary, Mrs. W. C. Durham, was forced by the increasing pressure of other duties to resign from the Academy. We have been extremely fortunate to be able to retain her services as a consultant for a few months. The Academy and especially the Council will greatly miss her ready help, advice and knowledge, and happy smile. She has given devoted service, much beyond the usual or expected, and her efforts on our behalf are greatly appreciated and not forgotten.

CDSPI has been retained on a tentative basis to furnish the Academy with office space and secretarial service. Mrs. P. Williams has taken over the duties of Executive Secretary. It should be noted that the office work load is increasing, some of which is due to an increasing number of telephone enquiries, and mediations and complaints.

WILLIAM S. MACKENZIE
Secretary

EMERGENCY SERVICE

The Academy of Dentistry again sponsored the Emergency Service for all of Metro Toronto.

This service provides emergency care after normal hours and on week-ends and holidays.

This service is absolutely necessary as evidenced by the number of patients seen and treated. I feel that the local societies should be very grateful for the way the Academy runs this useful service. There have been some problems but these remain a very small percentage of the cases.

Many thanks to the dentists who served and to Mrs. Durham and Mrs. Williams who made my task easier.

Respectfully submitted
MURRAY WAGMAN

REFEREE BOARD ON DENTAL CARE

The past year witnessed a major change in the operation of this aspect of the Academy. In the past all requests for assistance were referred to private practitioners, the Ontario Crippled Children's Centre or the New Mount Sinai Hospital. This year, the Faculty of Dentistry Clinic has accepted the requests for dental treatment of several young patients which were judged to be in true need and were unable to get help through regular channels.

Your chairman would like to express his sincere thanks to the Ladies Auxiliary of the Academy for first the funding for the Referee Board and secondly for the endorsement of the changeover.

Dr. J. Kreutzer, Director of Clinics and Mr. R. Adey, Administrative Assistant, Clinics of the Faculty are to be commended for their generous assistance.

All Academy members are urged to donate to the scrap amalgam collection and thus support the ladies fund raising for this most worthy project.

ROBERT A. WORLING, *Chairman*
Referee Board 1972-1973

MEDIATIONS COMMITTEE

The local Society Mediations Committees in Metro Toronto have been saddled with an ever increasing load of complaints to attempt to resolve. They are doing a wonderful job in a situation that is constantly becoming more difficult. The gratitude of every dentist in the city is due them.

As the public are increasingly inclined to complain and less inclined to accept simple explanation, I feel that we shall soon need a more formalized body with some statutory authority to back it up.

H. A. FERGUSON, D.D.S.,
Chairman,
Mediations Committees.

TOUR TO MEXICO

This was the third tour organized by your Academy to a World Congress of the *FÉDÉRATION DENTAIRE INTERNATIONALE*. The previous tours were to Cologne in 1962 and Paris 1967. Over three hundred Canadian Dentists attended the Convention held in Mexico City October 22-27, 1972. At this meeting Canada, by unanimous vote of the F.D.I. Council, was chosen as the venue for the XVIth International World Congress. It will be held in Toronto, October, 1977.

Our group of forty-seven spent four days at the convention which was very well organized. The scientific program was varied and many of the important group clinics and symposia were instantaneously translated into five languages. The highlight of the social program was the attendance of over 6,000 people at the World famous Mexican Folkloric Ballet.

The Academy group then flew to Merida in Yucatan Province to visit the archeologic excavations at Chitzen Itza and Uxmal. The Mayan civilization mysteriously vanished from this area, for no apparent reason, over a thousand years ago. We finally ended up at the beautiful Island of Cozumel. Here the crystal clear waters permit you to see the ocean floor at depths of over twelve feet. This is a paradise for swimming, fishing and snorkling. Neither did we lack entertainment, we held our own very successful Canadian Federal Elections, a Hallowe'en party and a hilarious ladies evening program.

Tour Director
